WELCOME TO SUNSAIL ST. MARTIN

“

Welcome to St. Martin and to Sunsail base in Marigot bay. We are lucky to offer you a piece of paradise here in the Caribbean, and hope you will enjoy your holiday, whether it means sampling world class French and Creole cuisine in Grand Case, basking in the pristine white sands of Orient Bay, soaking in the New Orleans vibe of Marigot, or being part of St. Baths glamour. ”

CLEARANCE AND CUSTOMS

Throughout the Caribbean the skipper/charterer of a vessel is legally responsible to ensure that the Customs and Immigration check-in and check-out procedures are carried out. Failure to do so may cause the boat to be impounded, the crew jailed and fines of up to \$USD 10,000.

Clients are informed of the details during the chart briefing.

Detailed procedure is further described in the USEFUL INFORMATION section of this guide.

YACHT DAMAGE WAIVER AND SECURITY DEPOSIT

Forgot to get YDW before you departed? We've got you covered! Purchase it at reception and don't worry about possible damage! Inquire at the reception for further details.

Please be aware that in case of damage to the boat or loss of equipment onboard, Sunsail maintains the right to retain a correspondent amount of the deposit.

SNORKELLING EQUIPMENT

We have a range of fins which you may wish to use already on board. In case you need different sizes, please ask the Customer Service team. We are limited on children's sizes so if you have your own you may wish to bring them with you.

We are no longer providing **snorkels and masks**, but you are welcome to purchase some at the base or bring your own.

SAFETY EQUIPMENT

Lif jackets are found on-board. We are limited with children's sizes, however, so you may want to bring your own if needed.

We suggest that children who are not strong swimmers should not be allowed in a dinghy without a life jacket or buoyancy aid and that they should wear a buoyancy aid or harness when on deck.

ADDITIONAL EQUIPMENT

Rental of Diving Equipment, Sail-board and Wind & Kite-Surfing Equipment, Fishing Equipment can be arranged locally.

DINGHY SAFETY

Unfortunately, due to common theft, it is necessary one pays attention to dinghy safety. On the yacht is a 20 feet cable and two padlocks to secure the dinghy while left unattended. This cable is swaged onto the outboard and the lock should be used to lock the outboard onto the dinghy stern eye push pit. Always make sure the dinghy is well-cleat or tied at all times. Please secure the dinghy by using a stern anchor while docked to avoid it going underneath the dock, and always use a flashlight when underway after sunset.

FUEL

Fuel is not included on bareboat charters. Your yacht will be delivered with a full tank of fuel. At the end of your charter, simply return your yacht with a full tank or pay for the fuel used at the local marina price. Please refer to your destination-specific refuelling instructions for details. **Exceptions:** Fuel is included for crewed charters/ flotilla charters.

RE-FUELING

Fuel is not included on bareboat charters. (Exceptions: Fuel is included for crewed charters/ flotilla charters). Your yacht will be delivered with a full tank of fuel and should be returned with a full tank at the end of your charter. If the yacht is not returned full, fuel used will be charged at the local marina price.

Refuelling arrangements vary by destination. In some locations, you will refuel before returning to base, while in others our team will assist with refuelling and returning the yacht to her berth. Full details will be provided during your yacht briefing.

**One full tank suffices for any holiday, however, to fuel up, please ask at the base for advice, as we like to keep contaminated fuel away from our tanks.*

In St Martin:

- Contact the base by VHF Channel 72 or telephone shortly before arrival.
- Prepare lines and fenders before proceeding to the fuel dock.
- Refuelling takes place before returning the yacht to the marina.

BEFORE SAILING OUT OF THE BASE

- Please ensure you have all the galley equipment and bedding you require, extra bedding and some cooking utensils are available upon request.
- Make sure your fins fit.
- Make sure the fuel/water tanks are full. You will need to top up your water tanks.
- Make sure you have your boat papers.
- Make sure you are provisioned.
- Make sure you have enough cash.
- Ensure you have kids life jackets, as we have a limited supply. If you have your own children's life jacket, we would encourage you to bring it along.
- Call us on VHF 72 direct to announce your departure, our Customer Service Staff will come to help you. In hurricane season leave your planned itinerary .

WHEN YOU RETURN TO THE BASE

RETURN TO BASE PROCEDURE

- Please empty all holding tanks and bilges before returning to base.
- Leave enough time for check-out procedure - at least one hour, meaning you **shouldn't return to base after 10:00**, as charters end at 11:00.
- Call Sunsail base on VHF 72 about 5 mins before arriving, or use a phone.
- Secure fenders and dock lines on the starboard side and have someone ready for dock duty before proceeding to the fueling dock. We will assist you to your assigned docking space.
- Please remember the last arrivals in the day are **before 15.30**, if you plan to return to base the day before. Call us at least an hour in advance in that case.

BEFORE YOU LEAVE YOUR BOAT

Before disembarkation you will be met with a technician for debriefing. It is done to let us know if you have encountered any problems with the boat or broken anything during the trip, so we can rectify any problems for the next charter. He will also take back charts, cruising guides and the appreciation form.

AVAILABLE SPOTS ARE NOT GUARANTEED!

We might ask you to drop anchor outside of the base in case of unavailable dock space. To avoid that, please inform us of your return in time.

Please ensure:

- If you visit a beach, please prevent sand from getting on board by rinsing your feet before boarding the yacht.
- Your questionnaire has been completed.
- Sheets and towels are left on beds. They will be fogged together with the whole yacht before cleaning.
- All garbage has been bagged and left in the trash at the parking lot.
- All personal possessions have been removed; please check thoroughly as items are often left onboard.
- All hatches are closed.
- The keys have been left in the chart table.
- Your transfer has been arranged with reception.
- The inventory is in its correct place, as it makes the final check much easier.

The boat should be brought back in a good seamanlike condition. If this is not the case, you will be charged **\$50 USD** for extra clean-up and **\$100 USD** for each toilet blocked.

GRATUITIES

If you want to leave a tip for the staff, we kindly ask you leave it at the Customer Service Office where it will be distributed. For those who have a bareboat captain and/or cook, it is customary to leave a tip at the end of the charter. It is purely discretionary, but as rule of thumb, 10-15% of the charter cost is usual.

USEFUL INFORMATION

NON-SAILING ACTIVITIES

Restaurants and Tipping

You will find many good restaurants in and around the base, most of them serving delicious local food. Here are a couple of our suggestions:

O'Plongeoir - across the marina
 The Yacht Club Restaurant - located at the marina
 L'Arhawak - 5 minute walk from the marina
 West Indies Mall, 2 minutes walking distance with plenty of choice
 L'Express Bakery
 Fernand Bakery - chezfernandsxm.com
 Le Massai Lounge

Many more restaurants can be found in Marigot, with only 5 minutes walking from the marina. On Sundays many shops and restaurants in Marigot are closed, so make sure you organize your provisioning in time.

Tipping is standard and expected in all restaurants/bars and for other services undertaken during your holiday. The rule of thumb is generally 10-15 percent of the amount charged. Some establishments automatically add this onto the bill.

Hotels

French Side - the hotels are approximately 20 mins walking distance from the base, and there are plenty more in Orient Bay, Grand Case and Oyster Pond, little further away:

Fantastic Hotel	fantastichotelsxm.com
Hommage Hotel	hommagehotel.com
Centre Hotel	centrhotel.fr/en

Dutch Side - [take care of about restrictions](#)

Holland House - Philipsburg	hhbh.com
Atrium - Simpson Bay	theatriumresort.com
Mary's Boon - Simpson Bay	marysboon.com
Princess Heights - Oyster Pond	princessheights.com

Shopping

Many like shopping in St Martin/Maarten, however we advise attention in order to avoid quarantine upon return. St. Barts is a duty-free port, with the highest concentration of shops being in Gustavia, followed by St-Jean, with its several shopping centers.

Activities

Whether you're on the Dutch side or French side, there are numerous places worth a visit. Places to see, taste, feel, entertain, score, pleasure or experience. Each spot has its own special reason to visit. Go online to wearesxm.com for more details.

One of the things that set the dual-nation island of St. Martin apart from a typical beach destination is the incredible variety of sporting and adrenalin-charged activities available to visitors. Whether you get your thrills zipping across the waves on a Jet Ski, exploring the mysterious wonder of the ocean depths, or hiking or biking to the top of a windswept peak for a breathtaking view, St. Martin has something to please your sporting taste:

Nightlife

With the Nightlife on Sint Maarten/Saint Martin, you can dance and enjoy all night long! There are many different bars and clubs to choose from, every day is a party! Start your evening in one of the many top-notch cocktail bars such as:

Bamboo Bar | Ocean Lounge | Palapa Grill | Temps de Cherises |
The Boon | Kakao | Kontiki | Indigo Beach.

Test your luck in the casinos or party late-night at:

Rhythm & Booze | Red Piano | Snoopy's | Nowhere Special |
Topper's | WE Lounge | Marty's | Lotus Nightclub.

In St. Barts, some restaurants have an independent cocktail bar. They have a lively ambiance and sometimes propose live entertainment, like:

Bête Z'Ailes | La Plage | Nikki Beach | and | Le Ti St Barth.

On Gustavia is the "Yacht Club" with its "Live Screen Concerts" and "Casa Nikki", which provide mind-altering drinks, ear-shattering disco music, and a great dance floor.

Fishing

No license is required for fishing in this region and you are allowed to fish from the yacht. Fishing gear can be rented at the marina, payable in cash only on site (60\$ US per week). You can order in advance or on the day of boarding. Please be aware that fishing is only allowed on trails while sailing and outside marine parks.

Ciguatera poisoning is a BIG problem. Don't eat any fish you have caught before checking with a local fisherman.

Diving and Snorkelling

Like all the Caribbean - diving and snorkelling here is magnificent. We are providing our guests with fins, while for scuba diving a license is required, and we suggest a visit to a nearby center for equipment rental.

NIGHT SAILING

Night Sailing is not permitted; you must be moored at least one hour before sunset at all our locations.

It is strictly forbidden to sail alone; we require two persons minimum on board.

PREVAILING WINDS

From November to April local weather conditions are mostly dependent on the size and location of the north Atlantic high pressure system which moves southwards in the winter. The trade winds are clockwise rotating winds on its southern edge. They tend to be steady 12-20 knots out of the East varying a few degrees to ENE or ESE.

A strengthening of the high pressure system and the pressure gradient created by the advent of cold fronts from the west (especially during December to March) can cause the wind increase to 20-25 knots for several days at a time.

The hurricane season technically lasts from June to November. In this period we ask you to be particularly vigilant and to:

- Listen to the weather forecast daily or call the base for weather reports.
- If there is any mention of possible tropical development, contact the base.
- Notify us on any changes from the itinerary left in the base.
- Ensure cellphone connectivity, we will provide you with one if needed.

WEATHER FORECASTS

You will be given a forecast for the next couple of days at the beginning of your charter. Please make an effort to do a daily update:

Internet	windy.com ; windguru.cz
Telephone	Call our customer service starting from 9am for the report
VHF Radio	Channel 64 at: 9:00, 12:30, 20:00, and 22:00 (French)
FM radio	Freq. 91.9 at 9:00, 12:00, and 17:00

KEEP A LOOKOUT

Make sure one person is always designated “on watch” for other vessels, debris, fish traps, land or other navigational hazards.

Ensure your lookout knows how to disengage the autopilot and brief him / her on what to watch for. Breaking water, pitches of light colored water may indicate shoals or reefs. Seeing one fish pot usually means there are others nearby as well. Do not sail between them as they can be connected by a piece of line.

4 HOUR BREAKDOWN GUARANTEE

We want to make sure your sailing vacation is fun, memorable and successful. So if you have any problems during your yacht charter, please call us and we'll sort them out within 4 working hours from your call. Check out more details [online](#).

MOORING TIPS

Anchoring is the most common way of spending the night in St. Martin. Some anchorages offer mooring buoys as well, and in marine parks the use of one is obligatory.

Anchoring

Do so by 30 minutes before sunset at the latest. Remember that there is not a long twilight time in the tropics and that there is considerable glare on the sea late in the day, making the reefs hard to see. Snorkel over the anchor and mooring buoy to ensure it is secure.

Fish traps

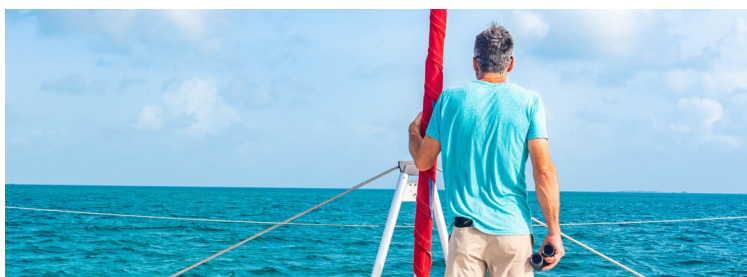

Keep a good lookout at all time and beware of small floating markers. Do not pass between two close together, as they are probably connected with a line. Frequently, the second marker is half submerged or invisible. If you catch one in the propeller, try to remark it before you cut it loose, this is someone's living.

Buoyage

The entire Caribbean subscribe to the international Buoyage System B; Red Right Returning. However, there are very few navigation markers.

Navigation rules

Windward boat keeps clear.
 Boat on port tack keeps clear.
 Overtaking boat keeps clear.
 Boat running free keeps clear.
 Power vessel keeps clear of sail.
 (unless the vessel is overtaking)

EMERGENCY CONTACTS

We always recommend calling the base first in case of any incidents. However, there are a couple of contacts we would like our guests to keep handy. **The Coast Guard** is always on stand by on VHF Ch. 16.

YOUR SAFETY

STAY SAFE AND HEALTHY ABROAD

Please locate your safety card when you get onboard and ensure that all crew read it before leaving the marina. If you cannot find it, then please contact reception who can provide a replacement. Although you will have watched the [online Charter Safety Briefing](#) before leaving home, we recommend that you rewatch the video before leaving the dock. This can be done on your own devices using the QR code.

We care a lot about your personal safety, so please read more about these topics in the safety card:

- Accident & Illness
- Be Aware & Safe
- Swimming & Beach Safety
- Alcohol & Drugs

SWIM SAFE

Swimming is often a fun and important part of a vacation. However local rules, flag systems, currents and where swimming may be permitted, can be different and vary from country to country. We strongly recommend that you and all your crew read through our 'swim safe' information [online](#) before you travel. Unfortunately even the strongest of swimmers can get into difficulties. The information on our website covers children, your surroundings, looking out for others, and not overestimating your own ability. Snorkel vests, life jackets (please see [page 14](#) for advise on what is available) and diver down flags are all available on board.

MARINE ANIMALS

Jellyfish

There are many species of jellyfish in the cruising area and there have been several instances where clients who have been stung by jellyfish have required hospital treatment. If you have allergies, it is advised to wear stinger suits or refrain from swimming.

If you are stung

- Immediately exit the water and apply copious amounts of vinegar to the affected area.
- Pour vinegar over the tentacle before attempting to remove it with tweezers.
- Do not try to rinse it off with fresh water
- You can then immerse the affected limb in hot salt water or apply a hot compress.

Generally the affected area will usually only be a minor irritation, similar to a bee sting and the sting area is normally itchy. Should you start to experience any additional symptoms you should contact the base immediately for help and advice on where to seek medical assistance.

Coral stings and cuts

Several species of poisonous coral will have a painful sting if touched or stepped on while snorkelling. If you are stung immediately exit the water and apply copious amounts of vinegar to the affected area and then immerse the affected limb in hot water or apply a hot compress.

Cuts and abrasions caused from coral have a high risk of infection, so thoroughly clean the wound as soon as possible. Avoid swimming afterwards.

Sea Urchins

Sea urchins are not poisonous but their spines are very painful if touched or stepped on and will normally break off if attempting to pull them out with tweezers.

Hot water is again the best treatment and leaving vinegar-soaked cloth on the injured spot, so the spines get out.

Manchineel trees

Recognised by their tiny apple-like fruit, yellow or yellow-green in color. DO NOT eat the fruits or even sit underneath the tree in the rain. They grow along the shore and their toxin causes rashes and, in extreme cases, death.

Fish and Ciguatera

Ciguatera is caused by a neurotoxin which is only present in reef fish. There is no telling if fish are contaminated, so best avoid eating reef fish and stick to deep water fish, like swordfish, dolphin, tuna and wahoo.

Symptoms include tingling of the lips, mouth and tongue, itching skin, fever, chills, muscle and joint aches, weakness, vomiting and diarrhea. Seek medical attention immediately.

If you happen to be stung by a fish immediately exit the water and treat with hot water. You may require a tetanus injection.

Sharks

There are several species of sharks in these waters.

Sea Snakes

Sea snakes although highly venomous are actually very timid and avoid swimmers.

It is noted for its easygoing atmosphere and magnificent white sandy beaches and waters, with several small uninhabited offshore islands.

ROAD BAY

Main port of entry to Anguilla, Road bay is a long bay with a white sandy beach. Clear customs and ask for your cruising permit if you want to visit other bays or islands and enjoy live jazz music on Sundays afternoon at Johnno's.

Once you get your cruising permit, leave early to pick up one of the three mooring buoys as it is not easy to anchor (a lot of rocks there). Anchor in the south of Prickly island, then dinghy in. Have a good look at the guidelines to find your way in.

ST. BARTHOLOMEW’S

Saint Barts is renowned as one of the oldest volcanic islands in the Lesser Antilles chain. Its arid and rocky soil does not adapt to agriculture. Iguanas, land and sea turtles, sea birds, including the pelican, island mascot or the astonishing hummingbird in the gardens make up a discreet but very present fauna.

ILE FOURCHE

A perfect stop between St Martin and St Barth, Ile Fourche is a marine park and basically an old crater of a volcano. Go and hike one of the five hills at the end of afternoon if you remembered to bring good shoes, or watch sea turtles while snorkelling. Humpback whales migrate through here in the spring, so keep an eye out for these magnificent creatures. Be careful with rock awash on the southwestern tip and don’t stay on the mooring buoy for the night, but use your anchor instead.

ST. KITT’S AND NEVIS

Also called Saint Christopher and Nevis, it is the smallest country in the Caribbean with the capital Basseterre on the island of Saint Kitt’s. St Kitts is known for its beautiful beaches, unspoiled tropical forests and friendly locals, but there is a lot more than meets the eye. Nevis, surrounded by coral reefs, lies 2 miles (3 km) southeast of Saint Kitts across a channel known as The Narrows. The island is circular, and it consists almost entirely of a mountain.

BASSETERRE (ST. KITTS)

The capital of St Kitts is a busy town with a very good fresh market. You can anchor outside or come into the marina to visit the town, hire a cab from Percy (our representative and a nice taxi driver : VHF16) to visit the Fort, the sugar cane plantation and the rain forest with its green velvet monkeys.

STATIA

St. Eustatius, or Statia, is aptly described as a sleepy corner of the Caribbean. “The Golden Rock” is one of the last great destinations where you can get a taste of the old Caribbean, a laid-back island with few flashy attractions but lots of great diving, well-preserved natural habitats, and history aplenty.

ORANJESTAD

Oranjestad is the smallest capital in the world, from where you can visit the volcano and rain forest, as well as bask in history of the small island you are on.

Among first visitors was probably Christopher Columbus in the 15th century, but Statia actually blossomed from trading weapons during the American Civil war, making history by being the first country to recognise America as an independent country. While spending time there, make sure to keep an eye out for blue beads, the old payment method, and the only artifact allowed to leave the island, guaranteeing you will come back.
